# EMAIL ALERT QUICK START GUIDE

Version .08/2018

www.faleemi.com
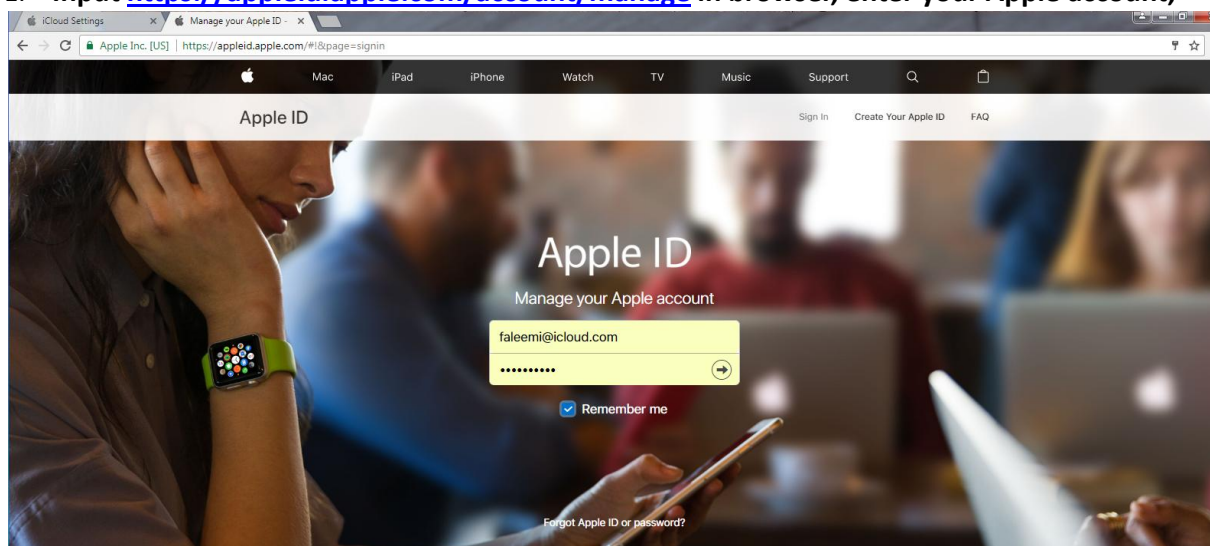

iCloud Email Alert Setting

Step 1 iCloud Setting

Tips: App-specific passwords are single-use passwords for your Apple ID that let you sign in to your account and securely access the information you store in iCloud from a third-party app. For example, use app-specific passwords with Microsoft Outlook, Mozilla Thunderbird, or other mail, contacts, and calendar services not provided by Apple. App-specific passwords maintain a high level of security and help ensure your Apple ID password won't be collected or stored by any third-party apps you use.
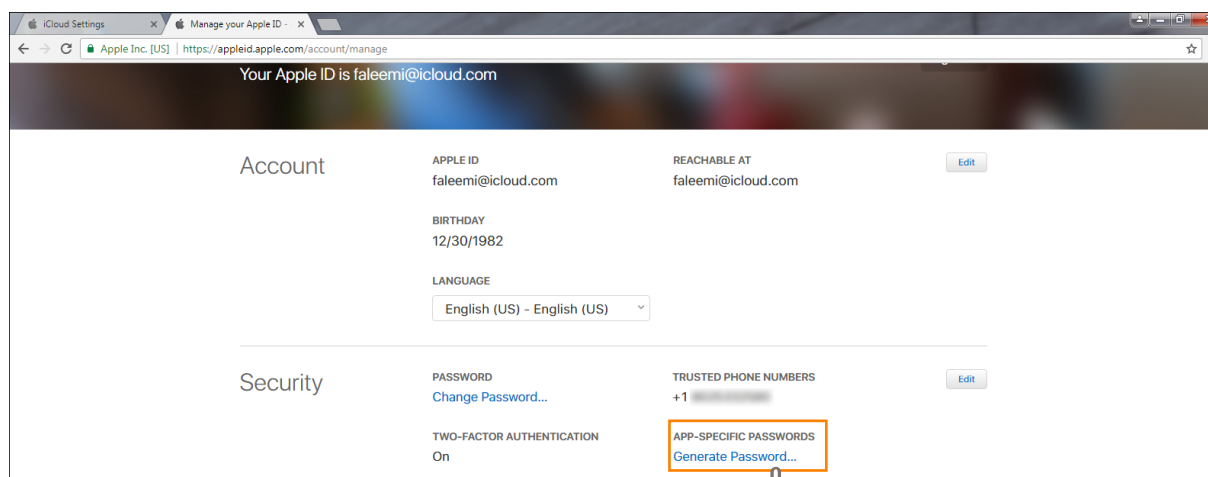

To generate and use app-specific passwords, your Apple ID must be protected with two-factor authentication.

If you didn't set up Two-step verification for Apple ID, please follow this instruction.：
https://support.apple.com/en-us/HT204152

1. **Input https://appleid.apple.com/account/manage in browser, enter your Apple account,**

2. **[Security] →click on [Generate Password…]**

☺ Please feel free to contact us if you meet any problem when you setup your camera.
Faleemi Support Team is ready to support you! ☺ Email/Skype: support@faleemi.com

3. **Enter a name (Like: Faleemi App Alarm) which is easy to remember and click，Click on [Create]**
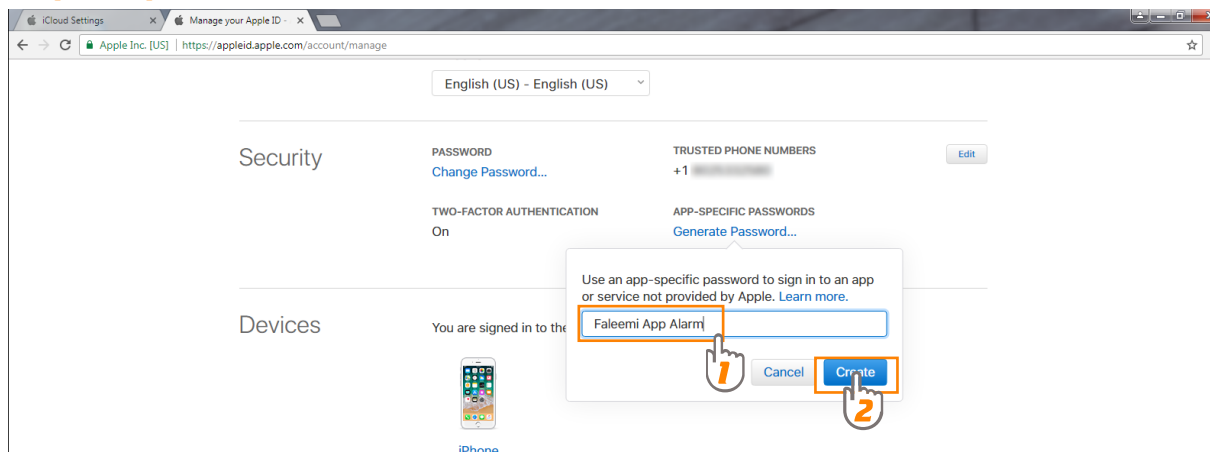

4. **You will get a password as below screenshot. Please record the app password generated, and** then click **[Done]**.
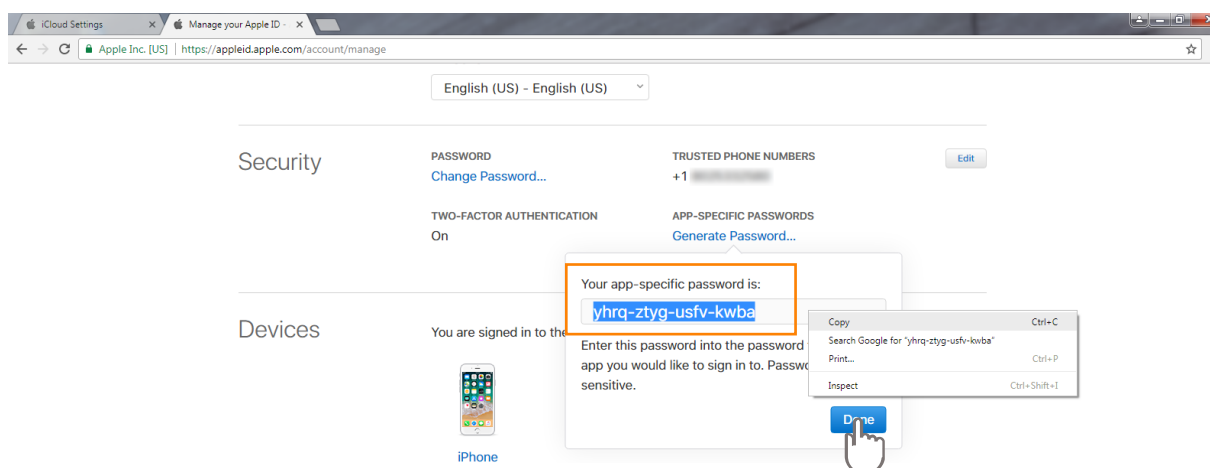

Tips: Please make sure you have recorded your password (it is the app password just generated above, Better to copy the app password and paste it to avoid any mistyping), if you forget it, you need to revoke it, and then create it again.

☺ Now the iCloud setting is finished.

☺ Please feel free to contact us if you meet any problem when you setup your camera.

Step 2 Go to Faleemi app to do the setting

Tap **[>]** → **[Advanced Settings]** → **[Alarm Setting]** and **[Mail Setting]**

☺ Please feel free to contact us if you meet any problem when you setup your camera.
Faleemi Support Team is ready to support you! ☺ Email/Skype: support@faleemi.com
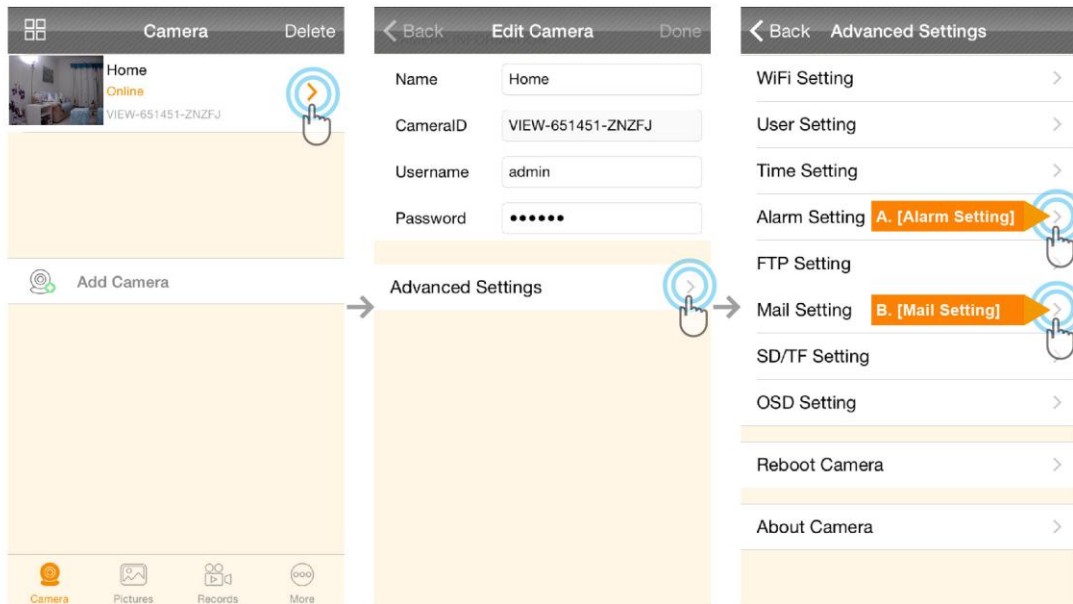

A. [Alarm Setting] → enable **[Motion Detect Armed]** and **[Send mail When Alarm]**. Tap **[Done]** (Tip: You can set Motion Detect Sensitivity to High, Normal, or Low. We suggest you to choose Normal)
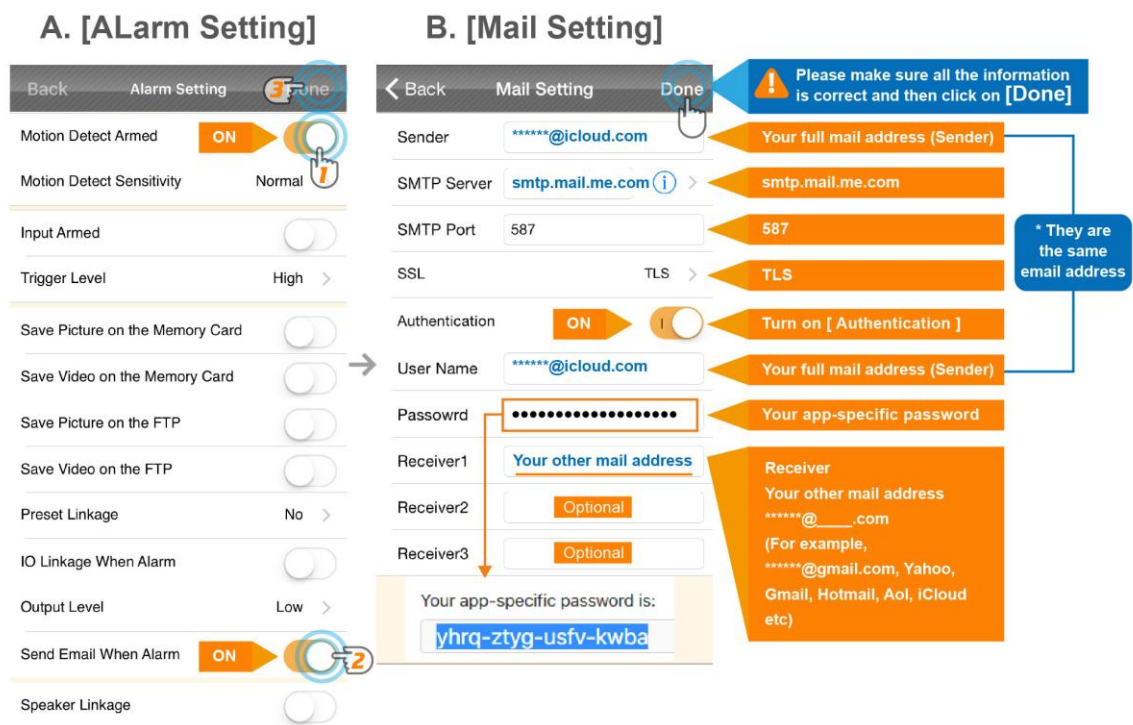

B. [Mail Setting] → Icloud **SMTP Port: 587 , SSL: TLS**, enter your email address (for example: faleemitech@icloud.com), and the password (it is the app password just generated above)

Your app-specific password is:

yhrq-ztyg-usfv-kwba   **yhrq-ztyg-usfv-kwba** , and then receiver Email address, etc. Tap **[Done]** Please refer to below screenshots.

☺ Please feel free to contact us if you meet any problem when you setup your camera.

Sender:	******@icloud.com (Your full icloud mail address, for example, faleemi@icloud.com)*
SMTP Server:	smtp.mail.me.com
SMTP Port:	587
SSL：	TLS
Authentication:	Enable
User Name:	******@icloud.com * (The same as **Sender**)
Password	Your icloud app password **(19 characters including the hyphen -)** (for example: **yhrq-ztyg-usfv-kwba**)
Receiver1	********@_____.com Your other mail address, *******@****.com (for example, Yahoo, Gmail, Hotmail, Aol, iCloud etc)
Receiver2	********@_____.com **(Optional)**
Receiver3	********@_____.com **(Optional)**

☺ **Please pay attention to put your Sender Email address to the white list of your Receiver email address.**
Otherwise, sometimes, the emails go to junk mail box.

☺ **So far, the setting is finished. Your receiver email will receive mails with real time alarm pictures as below screenshot.**

☺ Please feel free to contact us if you meet any problem when you setup your camera.
